## PROJECT SUMMARY

### Windsor Floatovoltaic Solar System

<b>CECI PROJECT #:</b>	S5195031	<b>DURATION:</b>	12 months
<b>PROJECT ADDRESS:</b>	8400 Windsor Road Windsor, CA 94954	<b>SIZE:</b>	1.8M DC
<b>DATE OF COMPLETION :</b>	June 2020	<b>CONTRACT:</b>	\$1,338,705

**BRANCH** WEST SACRAMENTO

**BRANCH  
MANAGER** MARC MUZZO

**PROJECT  
MANAGER** CRAIG GINI

**FOREMAN** DAVID GOMES

**Description** **1.8M DC floating solar production photovoltaic.** This system will generate power for the Windsor waste reclamation facility, corporate yard, and the geysers pump station, delivering approximately 80 percent of the water reclamation facilities’ power requirements while saving about 30 percent of the cost of existing grid service.

**Owner** **Ciel & Terre**  
755 Baywood Drive  
Petaluma, CA 94954

**General Contractor** **Collins Electrical Company, Inc.**  
3412 Metro Drive  
Stockton, CA 95215

**Architect** **Collins Electrical Company, Inc.**  
3412 Metro Drive  
Stockton, CA 95215

**Engineer** **Hardin-Davidson Engineering**  
365 Pollasky Ave. #200  
Clovis, CA 93612  
#559.323.4995

Corporate office: 3412 Metro Dr. Stockton, CA 95215 | Phone: 1-833-787-CECI (2324) | Fax: 209-466-3146
